EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Neal Page Pierotti on November 10, 2004.

The application has been amended as follows:

In claim 1 has been re-written as follows:

1. (Currently Amended) A process for producing tissue webs comprising the steps of:

forming a web from an aqueous suspension of fibers; and while having a solids content of at least 10%, passing said web on a porous fabric through a nip and onto a heated drum, said nip being formed between said heated drum and a press roll; wherein the air permeability of the porous fabric is at least 400 cfm, said web having a residence time in said nip of at least about 10 milliseconds and wherein said nip subjects said web to a temperature and pressure sufficient to expel at least 20% of the moisture contained in the web, said web having a basis weight of less than about 30 pounds per ream.

Art Unit: 1731

2. The following is an examiner's statement of reasons for allowance: the closest prior art, Bluhm et al., does not teach nor fairly suggest the permeability of the porous fabric as it is now claimed. See also applicants' remarks of September 30, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to José A. Fortuna whose telephone number is 571-272-1188. The examiner can normally be reached on 9:30-6:00.
